JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

Abstract of Part of a Letter from the Honourable William Bentinck, Esq; F. R. S. to Martin Folkes, Esq; Pr. R. S. communicating the following Paper from Mons. Trembley, of the Hague.

S I R, *Hague, Jan. 15. N. S. 1743*

“ **W** HAT I here send you inclos’d will, I hope,
 “ answer the Queries of your last Letter.
 “ Mr. *Trembley*, the Gentleman who has
 “ made the Observations on the Insects, has drawn this
 “ Extract from his Journal: And I can answer for the
 “ Truth of the Facts therein contained, as there is not
 “ one of them but what I have seen repeated above
 “ Twenty times. I send you the Paper in *French*, not
 “ having had Time to translate it. I wish others may
 “ be encouraged to try the Experiments over-again,
 “ and satisfy themselves of the Truth, by their own
 “ Eyes. The Insects may certainly be found in *Eng-*
 “ *land*, if carefully lookt for, especially by such as
 “ are accustomed to such Enquiries. However, if that
 “ should be found difficult, it may be easy to send
 “ some over to you: And Mr. *Trembley* will give Di-
 “ rections how to keep and feed them; for he makes
 “ himself a *Point d’honneur* of being communicative,
 “ and concealing nothing of what he knows about
 “ them. If therefore you have any Doubt, or want
 “ any further Information, please only to write to me,
 “ or to him, and you shall be sure of an Answer, by the
 “ first Opportunity. I pray to be kindly remem-
 “ bred— &c.
